REMARKS

Claims 1, 3-5, 7-10, and 12-13 are pending. By this Amendment, the specification, Abstract, drawings, and claims 1, 3, and 8 are amended, and claims 2, 6, and 11 are canceled without prejudice or disclaimer. No new matter is added. Support for the claims can be found throughout the specification, including the original claims and the drawings. Reconsideration in view of the above amendments and following remarks is respectfully requested.

The Office Action objected to the drawings under 37 C.F.R. 1.84(p)(5). The Examiner's comments have been addressed in amending the specification and drawings. Accordingly, the objection should be withdrawn.

The Office Action rejected claims 1-13 under 35 U.S.C. §102(b) as being unpatentable over Onishi et al. (hereinafter "Onishi"), U.S. Patent No. 3,548,615. Claims 2, 6, and 11 have been canceled. The rejection is respectfully traversed in so far as it applies to the remaining claims.

Independent claims 1, 3, and 8 have been amended to recite, *inter alia*, that the outside of the rear wall is in tight contact with a whole surface of the spider opposed to the outside of the rear wall. Independent claim 1 has been further amended to recite that the outside of the rear wall has a curved surface. Onishi fails to disclose or suggest such features, or the respective claimed combinations of independent claims 1, 3, and 8.

Accordingly, the rejection of independent claims 1, 3, and 8 over Onishi should be withdrawn. Dependent claims 4-5, 7, 9-10, and 12-13 are allowable over Onishi at least for the

reasons discussed above with respect to independent claims 3 and 8, from which they respectively depend.

The Office Action rejected claims 1-13 under 35 U.S.C. §102(b) as being unpatentable over Kim et al. (hereinafter "Kim"), U.S. Patent No. 6,460,382. Claims 2, 6, and 11 have been canceled. The rejection is respectfully traversed in so far as it applies to the remaining claims.

Independent claims 1, 3, and 8 have been amended to recite, *inter alia*, that the outside of the rear wall is in tight contact with a whole surface of the spider opposed to the outside of the rear wall. Independent claim 1 has been further amended to recite that the outside of the rear wall has a curved surface. Kim fails to disclose or suggest such features, or the respective claimed combinations of independent claims 1, 3, and 8.

Accordingly, the rejection of independent claims 1, 3, and 8 over Kim should be withdrawn. Dependent claims 4-5, 7, 9-10, and 12-13 are allowable over Kim at least for the reasons discussed above with respect to independent claims 3 and 8, from which they respectively depend.

CONCLUSION

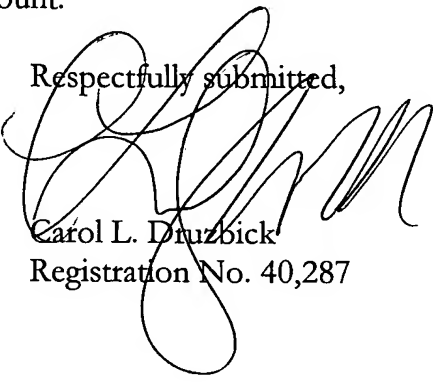

In view of the foregoing amendments and remarks, it is respectfully submitted that the application is in condition for allowance. Favorable consideration and prompt allowance are earnestly solicited. If the Examiner believes that any additional changes would place the application in better condition for allowance, the Examiner is invited to contact the undersigned attorney at the telephone number listed below.
